A FAINT HOPE REMAINS FOR REMOVAL OF RESTRICTIONS

From a Washington special to the Muskogee Phoenix by Clarence B. Douglas:

"The chance to win the fight in the senate for the removal of restrictions on the Five Tribes bill has gone by and the next move will be to get it tacked on the Indian appropriation bill.

"Section 19, referring to the removal of the restrictions, was stricken out and there is little chance to get it reinserted in the House. The probabilities are that only a last ditch fight can secure legislation removing the restrictions. Congress thinks the tribal rolls were stolen in order to learn of the status of all of the Indians so far as the degree of blood is concerned, for the pur-

pose of swindling the Indian out of his land.

"I went to the White House yesterday and verbally stated the situation, asking for presidential aid. By appointment I went back again today, with a written argument and discussed the subject with the President. He asked me to submit my written argument to Commissioner Leupp and to bring him Mr. Leupp's decision, which I will do.

"From sources which to me seem unusually strong and which have heretofore been dormant, offers of assistance have come and there seems nothing left for me to do, but stay here and go the limit before admitting defeat. Unless something unexpected occurs this I will do."

INDIAN APPROPRIATION BILL REPORTED TO SENATE

Washington, April 14.—The Indian appropriation bill was reported Friday from the Senate committee by Chairman Clapp. The principal items of increase are as follows:

Construction and repair of schools \$78,000, new schools and insane hospitals in Indian Territory \$100,000, for Kickapoos in New Mexico and Oklahoma \$245,235.

Among the amendments adopted was one to the effect that no army officer shall be engaged in the performance of the duties of Indian agent.

There are a number of amendments relating to the different tribes of Indians in Oklahoma and

Indian Territory such as establishing court districts and fixing times for holding court, school funds, etc.

The Senate Committee on Indian Affairs made two amendments of some consequence in the Indian appropriation bill, which it reported to the Senate yesterday. The more important of them proposes to remove the restrictions on the allotments in the Shawnee reservation of the Kickapoos, who are now in Mexico.

The other amendment proposed by the committee, provides that the Bardwell survey shall be the dividing line between the Creek Nation and Oklahoma. Any Creek Indian land which by this decision may be thrown into Oklahoma is to be appraised and bought by the United States.

THE NEWS' HANDSOME PICTORIAL SOUVENIR ALBUM

The Souvenir Album Edition of the Ada News will be published next month. Ada shall be advertised just that way to secure substantial results. The News management thoroughly believes the proposed edition is just what the city of Ada needs. It will greatly surpass anything ever turned out in Ada, and the public generally knows that the special edition published by the News two years ago was a hummer.

The finest half tone cuts, 4x7 inches, will be printed on extra calendared paper. These will constitute farm and ranch scenes, growing crop views, street scenes, pictures of the manufacturing plants, interior and exterior of our business houses, residences, churches and schools. All these will be made from actual photographs taken expressly for us by the Peerless Portrait Co., and will bear the stamp of the most expert artists, even to the smallest details. The News will not entertain personal write-ups of any character. The edition represent Ada and surrounding country's substantial citizens talking sensibly and convincingly to the foreign prospective investor. There will be in-

cluded an exhaustive article describing the lands, water supply, railroad facilities, manufacturing industries, agricultural resources and schools, and containing other facts pertaining to our country which will furnish the prospective foreign investor an intelligent idea of the magnificent opportunities in this Ada country.

The one hundred pictorial scenes used in the News special will also be used in Dr. Steel's splendid and exhaustive edition to his magazine to appear later. The entire number of half tone cuts and pictorial scenes will also appear in regular issues of the Ada Daily and Weekly.

The News will spare no expense or pains in this work. The public shall secure the profits! Our best efforts will be put forth and every facility of our plant will be utilized.

Over sixty views have already been contracted for, not a man so far having turned us down on the proposition of advertising Ada to the world.

The latest thing for swell billiard and pool tables is the rubber back covers. Try them at the Harris Hotel. 24t 17

LAND OFFICES ANCHORED AT ATOKA AND ARDMORE

Muskogee, I. T., April 14.—Some one down in the Choctaw and Chickasaw Nations has succeeded in slipping into the Curtis bill a clause that anchors the Indian land offices at Atoka and Ardmore until the final business of the government with the Indians is closed. Just how this was done no one seems to know, but it looks like the work of some

smooth ones who were interested in the towns of Atoka and Ardmore where the land offices are located.

It is known that it was the intention of the commission that as soon as the business in those two nations had been reduced sufficiently to justify it, to move the land offices to the main office in Muskogee, as was the case in the Cherokee land office.

THE JUDGE ELIMINATES THE GRAFT OF CURATORS

Durant, I. T., April 14.—At the last term of federal court at Atoka the Southern Trust company made an effort to secure an allowance of from \$30 to \$40 in each minor's case under a plea of "general expenses" to cover expenses. Judge Humphrey, the man who believes in "square deals," scented something of graft, and disallowed the charges, which would in the aggregate amount to 600 or 700 curators in three courts to at least \$20,000.

Last week at Antlers the Southern Trust company, for the cura-

tors, filed reports, and in these reports the small sum of \$2.88 under "general charge" in each case was asked for. This, in the aggregate, would figure up to several thousand dollars; also curator charges of \$15 in each case. Judge Humphrey again saw "bugs under the chips," and disallowed the claims.

In handing down his opinion Judge Humphrey stated that he was allowing these curators a regular fee for attorneys, same as in other cases, which alone figures up high.

PROBABLY THE TERRITORY MINES WILL OPEN APRIL 23

Denison, Texas, April 14.—It is believed that a concerted movement is on foot among a number of operators having coal mines along the Missouri, Kansas and Texas in Indian territory to open the mines Monday, April 23. The operators, it is understood, are willing to make some conces-

sions, though they will not sign the 1903 scale. By offering these concessions, the operators think that a large number of the men will return to their work.

Three mines, at McAlester, Chambers and Haley, I. T., are running, but the output is not large.

Our New Spring Clothing is Here!

Our clothing for this season comprises one of the richest and best selected displays of fabrics, the leading and swell-est novelties in the newest weaves. The styles in work-manship are up to the highest notch. The 3-button double-breasted and the 3-button sack coats are much longer for this season and possess tone and individuality. Yet our prices are the very lowest.

OVERDRAFTS

It is becoming well known by business men that overdrafts, whether large or small, are not approved by the comptroller of the currency. The large central banks allow overdrafts only in a very small way, and this, it matters not how small, is not approved by the powers that be. This unbusinesslike habit of overdrafts grew out of advancing on moving products, such as cotton, grain and fat stock on the move. The overdraft system is wrong and the man whose account is always overdrawn is the man who spends more money than he makes and will finally have no bank account.

KANSAS DEFEATED.

An Ada, I. T., Son Shares in Victory
In Intercollegiate Debate.

Carlton Weaver arrived home Saturday from the University at Norman for a short visit. Carlton comes to us this time wreathed in laurels. He is fresh from a notable victory in intercollegiate debate, which occurred Friday night at Norman.

The question debated was, "Resolved: That insurance companies doing an interstate business should be under Federal control." The affirmative of this great question of the day was espoused by R. Woodward and J. C. Mitchell, representing the Kansas University; the negative

CARLTON WEAVER

by R. McKittrick of Alva and Carlton Weaver of Ada.

The Kansas boys made a plucky fight, but the young men of the territories tore their arguments to tatters, convincing the judges and evidently the audience, as well, that federal control would be unconstitutional, inexpedient and altogether undesirable.

The decision of the three judges was unanimous for Oklahoma. Then, of course, college pandemonium broke loose. Messrs. McKittrick and Weaver were given an ovation by the student body, such as are given only in college life.

W. C. T. U. at Calvin.

Mesdames R. O. Wheeler and G. H. Keen on Saturday went to Calvin where they will meet the national officers of the W. C. T. U. It is something of a reflection on Ada, the fact that not enough interest could be aroused here to tender those prominent officers a reception and to furnish the necessary accommodation to guests.

Calvin will entertain the four W. C. T. U. officers and about twenty visiting ladies from neighboring places.

Longworth and Longfellow.

It was shortly before his marriage to Alice Roosevelt that Congressman Longworth was quite unexpectedly presented, at a large reception, to Samuel Longfellow, a brother of the poet. Now Longworth, be it remembered is nothing if not a modest man, and he was just then in somewhat a rattled condition because of all the notoriety showered upon him by a gratuitous daily press.

He did not know what to say, and so he said only: "Our names are almost similar, aren't they?"

Mr. Longfellow smiled kindly. "Yes," he quickly quoted: "worth makes the man and the lack of it the fellow."—Saturday Evening Post.

Throwing Goods Away.

Saturday was a record breaker at the big combination sale of Reed & Harrison and A. R. Sugg & Co. Shoppers fairly overwhelmed them. At the hours of eleven and three, a lot of goods were thrown away to the eager multitude in the street below. Naturally this created a good deal of merriment. There was a bull-dog fight among a bunch of men over a rug. The final result was each man got "his"—a fragment. Likewise shoes tossed to the crowd lost their mates and people went about with one shoe looking for a match.

To the Young Men and Business People of Ada.

I have made the Smoke House one of the nicest and most up to date places for amusement in town, something nicer than you see in cities much larger.

In order to keep a place like this depends on your patronage. If you wish to learn to play pool or billiards I will take particular pains in showing you.

If you do not wish to play, come and make yourself at home in the reading room. Plenty of ice water and reading matter. I carry the nicest line of cigars in town. I solicit your patronage.

And Ada Lost.

The initial base ball game of the season was rather disastrous to Ada's enthusiast. Last afternoon the Konawa team took a long fall out of them, winning by a score of 12 to 2. However, our boys have an abundance of good excuses for their defeat, for instance, some of Ada's best players were not in the game, the team had had no practice, the Konawas were all big grown-ups, etc. Just wait till the Ada bunch gets groomed good!

Wedding invitations—latest styles—turned out at the News office.

Superintendent Perkins Writes.

In a letter to the Ada School Board, Mr. Perkins says his school at Mesquite, Texas, will be out in three weeks; but on account of being instructor for one of the Texas summer normals from May to July, that it will be impossible to cast his lot with the Ada people before about July first. However, he expects to be able to visit our town in a few weeks that he may meet its people and render such service to the board as will contribute to the furthering of the schools' interest for the coming year. He further says that some of his pupils are speaking of coming with him to Ada and graduate in our schools next year.

The New's informant adds: "The town should congratulate itself in securing a superintendent who is graduate of the University of Missouri, which school is recognized as one of considerable note. The fact of his being instructor in the Normal is evidence of his superior qualifications, to say nothing of his success in building up a good school where he has continuously served for seven years. We are informed that his present school was at first a small affair, but that through his efforts it has grown until it is now affiliated with the Texas State University and is domiciled in a handsome brick structure which cost \$15,000, well equipped with quite a nice laboratory.

"Let everybody pull together and strive as in the past to increase the efficiency of our schools for in our opinion nothing so advances a community as does good schools.

A Struggle for Gold.

Wood & Thompson present the four act western melodrama of above title. It is a play that is well worth the attention of all theatre goers, even those who do not generally patronize this style of performance. As a play it possesses strong literary as well as dramatic worth, and is refreshing in its originality. While it is chock full of that tender sentiment called "heart interest," bright comedy of the latest vintage, and no end of thrilling developments and exciting situations; still it is a logical and well told story, with none of the inconsistencies or impossibilities too often seen in a melodrama. The audience is not asked to believe anything out of reason, or to fill any gaps with imagination. Add to this a splendid production of scenery and effects, and you have a general idea of the excellence of this attraction. The company, in order to give the measure heaping full, introduces six clever specialties between the acts, so as to take up every moment of the time.

A FAINT HOPE REMAINS FOR REMOVAL OF RESTRICTIONS

From a Washington special to the Muskogee Phoenix by Clarence B. Douglas:

"The chance to win the fight in the senate for the removal of restrictions on the Five Tribes bill has gone by and the next move will be to get it tacked on the Indian appropriation bill.

"Section 19, referring to the removal of the restrictions, was stricken out and there is little chance to get it reinserted in the House. The probabilities are that only a last ditch fight can secure legislation removing the restrictions. Congress thinks the tribal rolls were stolen in order to learn of the status of all of the Indians so far as the degree of blood is concerned, for the pur-

pose of swindling the Indian out of his land.

"I went to the White House yesterday and verbally stated the situation, asking for presidential aid. By appointment I went back again today, with a written argument and discussed the subject with the President. He asked me to submit my written argument to Commissioner Leupp and to bring him Mr. Leupp's decision, which I will do.

"From sources which to me seem unusually strong and which have heretofore been dormant, offers of assistance have come and there seems nothing left for me to do, but stay here and go the limit before admitting defeat. Unless something unexpected occurs this I will do."

INDIAN APPROPRIATION BILL REPORTED TO SENATE

Washington, April 14.—The Indian appropriation bill was reported Friday from the Senate committee by Chairman Clapp. The principal items of increase are as follows:

Construction and repair of schools \$78,000, new schools and insane hospitals in Indian Territory \$100,000, for Kickapoo in New Mexico and Oklahoma \$245,235.

Among the amendments adopted was one to the effect that no army officer shall be engaged in the performance of the duties of Indian agent.

There are a number of amendments relating to the different tribes of Indians in Oklahoma and

Indian Territory such as establishing court districts and fixing times for holding court, school funds, etc.

The Senate Committee on Indian Affairs made two amendments of some consequence in the Indian appropriation bill, which it reported to the Senate yesterday. The more important of them proposes to remove the restrictions on the allotments in the Shawnee reservation of the Kickapoo, who are now in Mexico.

The other amendment proposed by the committee, provides that the Bardwell survey shall be the dividing line between the Creek Nation and Oklahoma. Any Creek Indian land which by this decision may be thrown into Oklahoma is to be appraised and bought by the United States.

THE NEWS' HANDSOME PICTORIAL SOUVENIR ALBUM

The Souvenir Album Edition of the Ada News will be published next month. Ada shall be advertised just that way to secure substantial results. The News management thoroughly believes the proposed edition is just what the city of Ada needs. It will greatly surpass anything ever turned out in Ada, and the public generally knows that the special edition published by the News two years ago was a hummer.

The finest half tone cuts, 4x7 inches, will be printed on extra calendared paper. These will constitute farm and ranch scenes, growing crop views, street scenes, pictures of the manufacturing plants, interior and exterior of our business houses, residences, churches and schools. All these will be made from actual photographs taken expressly for us by the Peerless Portrait Co., and will bear the stamp of the most expert artists, even to the smallest details. The News will not entertain personal write-ups of any character. The edition represent Ada and surrounding country's substantial citizens talking sensibly and convincingly to the foreign prospective investor. There will be in-

cluded an exhaustive article describing the lands, water supply, railroad facilities, manufacturing industries, agricultural resources and schools, and containing other facts pertaining to our country which will furnish the prospective foreign investor an intelligent idea of the magnificent opportunities in this Ada country.

The one hundred pictorial scenes used in the News special will also be used in Dr. Steel's splendid and exhaustive edition to his magazine to appear later.

The entire number of half tone cuts and pictorial scenes will also appear in regular issues of the Ada Daily and Weekly.

The News will spare no expense or pains in this work. The public shall secure the profits! Our best efforts will be put forth and every facility of our plant will be utilized.

Over sixty views have already been contracted for, not a man so far having turned us down on the proposition of advertising Ada to the world.

LAND OFFICES ANCHORED AT ATOKA AND ARDMORE

Muskogee, I. T., April 14.—Some one down in the Choctaw and Chickasaw Nations has succeeded in slipping into the Curtis bill release that anchors the Indian land offices at Atoka and Ardmore until the final business of the government with the Indians is closed. Just how this was done no one seems to know, but it looks like the work of some

smooth ones who were interested in the towns of Atoka and Ardmore where the land offices are located.

It is known that it was the intention of the commission that as soon as the business in those two nations had been reduced sufficiently to justify it, to move the land offices to the main office in Muskogee, as was the case in the Cherokee land office.

THE JUDGE ELIMINATES THE GRAFT OF CURATORS

Durant, I. T., April 14.—At the last term of federal court at Atoka the Southern Trust company made an effort to secure an allowance of from \$30 to \$40 in each minor's case under a plea of "general expenses" to cover expenses. Judge Humphrey, the man who believes in "square deals," scented something of graft, and disallowed the charges, which would in the aggregate amount to 600 or 700 curators in three courts to at least \$20,000.

Last week at Antlers the Southern Trust company, for the cura-

tors, filed reports, and in these reports the small sum of \$2.88 under "general charge" in each case was asked for. This, in the aggregate, would figure up to several thousand dollars; also curator charges of \$15 in each case. Judge Humphrey again saw "bugs under the chips," and disallowed the claims.

In handing down his opinion Judge Humphrey stated that he was allowing these curators a regular fee for attorneys, same as in other cases, which alone figures up high.

PROBABLY THE TERRITORY MINES WILL OPEN APRIL 23

Denison, Texas, April 14.—It is believed that a concerted movement is on foot among a number of operators "having coat" mines along the Missouri, Kansas and Texas in Indian Territory to open the mines Monday, April 23. The operators, it is understood, are willing to make some conces-

sions, though they will not sign the 1908 scale. By offering these concessions, the operators think that a large number of the men will return to their work.

Three mines, at McAlester, Chambers and Haley, I. T., are running, but the output is not large.

OVERDRAFTS

It is becoming well known by business men that overdrafts, whether large or small, are not approved by the comptroller of the currency. The large central banks allow overdrafts only in a very small way, and this, it matters not how small, is not approved by the powers that be. This unbusinesslike habit of overdrafts grew out of advancing on moving products, such as cotton, grain and fat stock on the move. The overdraft system is wrong and the man whose account is always overdrawn is the man who spends more money than he makes and will finally have no bank account.

KANSAS DEFEATED.

An Ada, I. T., Son Shares in Victory
In Intercollegiate Debate.

Carlton Weaver arrived home Saturday from the University at Norman for a short visit. Carlton comes to us this time wreathed in laurels. He is fresh from a notable victory in intercollegiate debate, which occurred Friday night at Norman.

The question debated was, "Resolved: That insurance companies doing an interstate business should be under Federal control." The affirmative of this great question of the day was espoused by R. Woodward and J. C. Mitchell, representing the Kansas University; the negative

CARLTON WEAVER

by R. McKittrick of Alva and Carlton Weaver of Ada.

The Kansas boys made a plucky fight, but the young men of the territories tore their arguments to tatters, convincing the judges and evidently the audience, as well, that federal control would be unconstitutional, inexpedient and altogether undesirable.

The decision of the three judges was unanimous for Oklahoma. Then, of course, college pandemonium broke loose. Messrs. McKittrick and Weaver were given an ovation by the student body, such as are given only in college life.

W. C. T. U. at Calvin.

Mesdames R. O. Wheeler and G. H. Koon on Saturday went to Calvin where they will meet the national officers of the W. C. T. U. It is something of a reflection on Ada, the fact that not enough interest could be aroused here to tender those prominent officers a reception and to furnish the necessary accommodation to guests. Calvin will entertain the four W. C. T. U. officers and about twenty visiting ladies from neighboring places.

Longworth and Longfellow.

It was shortly before his marriage to Alice Roosevelt that Congressman Longworth was quite unexpectedly presented, at a large reception, to Samuel Longfellow, a brother of the poet. Now Longworth, be it remembered is nothing if not a modest man, and he was just then in somewhat a rattled condition because of all the notoriety showered upon him by a gratuitous daily press.

He did not know what to say, and so he said only: "Our names are almost similar, aren't they?"

Mr. Longfellow smiled kindly. "Yes," he quickly quoted; "worth makes the man and the lack of it the fellow."—Saturday Evening Post.

Throwing Goods Away.

Saturday was a record breaker at the big combination sale of Reed & Harrison and A. R. Sugg & Co. Shoppers fairly overwhelmed them. At the hours of eleven and three, a lot of goods were thrown away to the eager multitude in the street below. Naturally this created a good deal of merriment. There was a bull-dog fight among a bunch of men over a rug. The final result was each man got "his"—a fragment. Likewise shoes tossed to the crowd lost their mates and people went away with one shoe looking for a match.

To the Young Men and Business People of Ada.

I have made the Smoke House one of the nicest and most up to date places for amusement in town, something nicer than you see in cities much larger.

In order to keep a place like this depends on your patronage. If you wish to learn to play pool or billiards I will take particular pains in showing you.

If you do not wish to play, come and make yourself at home in the reading room. Plenty of ice water and reading matter. I carry the nicest line of cigars in town. I solicit your patronage. 18 St. M. E. Sangster.

And Ada Lost.

The initial base ball game of the season was rather disastrous to Ada's enthusiasm. Last afternoon the Konawa team took a long fall out of them, winning by a score of 12 to 2. However, our boys have an abundance of good excuses for their defeat, for instance, some of Ada's best players were not in the game, the team had had no practice, the Konawas were all big grown-ups, etc. Just wait till the Ada bunch gets groomed good!

Wedding invitations—a latest style—turned out at the News office.

Superintendent Perkins Writes.

In a letter to the Ada School Board, Mr. Perkins says his school at Mesquite, Texas, will be out in three weeks; but on account of being instructor for one of the Texas summer normals from May to July, that it will be impossible to cast his lot with the Ada people before about July first. However, he expects to be able to visit our town in a few weeks that he may meet its people and render such service to the board as will contribute to the furthering of the schools' interest for the coming year. He further says that some of his pupils are speaking of coming with him to Ada and graduate in our schools next year.

The New's informant adds: "The town should congratulate itself in securing a superintendent who is graduate of the University of Missouri, which school is recognized as one of considerable note. The fact of his being instructor in the Normal is evidence of his superior qualifications, to say nothing of his success in building up a good school where he has continuously served for seven years. We are informed that his present school was at first a small affair, but that through his efforts it has grown until it is now affiliated with the Texas State University and is domiciled in a handsome brick structure which cost \$15,000, well equipped with quite a nice laboratory.

"Let everybody pull together and strive as in the past to increase the efficiency of our schools for in our opinion nothing so advertises a community as does good schools.

A Struggle for Gold.

Wood & Thompson present the four act western melodrama of above title. It is a play that is well worth the attention of all theatre goers, even those who do not generally patronize this style of performance. As a play it possesses strong literary as well as dramatic worth, and is refreshing in its originality. While it is chock full of that tender sentiment called "heart interest," bright comedy of the latest vintage, and no end of thrilling developments and exciting situations; still it is a logical and well told story, with none of the inconsistencies or impossibilities too often seen in a melodrama. The audience is not asked to believe anything out of reason, or to fill any gaps with imagination. Add to this a splendid production of scenery and effects, and you have a general idea of the excellence of this attraction. The company, in order to give the measure heaping full, introduces six clever specialties between the acts, so as to take up every moment of the time.

THERE is a time for all things, so we learn from the Good Book; a time to mourn and a time to laugh. We mourn if fly time comes and finds us without screens, and we laugh when we have been thoughtful enough to supply ourselves in time. It

IS not too late now to provide yourself with a little comfort in the way of screen doors. There is a time to dance and a time to sing, but

NO doubt you, as well as ourselves, would prefer to dance and enjoy yourself with your chosen friends while the

FLY family does the singing on the outside of some first class screens. Come and see the large shipment of Screen Doors and Fixtures, we have just received, and it will be

ON US if we can not show you as good an assortment as can be found. Odd sizes made to order. Phone us what you want and we will do the rest.

A FAINT HOPE REMAINS FOR REMOVAL OF RESTRICTIONS

From a Washington special to the Muskogee Phoenix by Clarence B. Douglas:

"The chance to win the fight in the senate for the removal of restrictions on the Five Tribes bill has gone by and the next move will be to get it tacked on the Indian appropriation bill.

"Section 19, referring to the removal of the restrictions, was stricken out and there is little chance to get it reinserted in the House. The probabilities are that only a last ditch fight can secure legislation removing the restrictions. Congress thinks the tribal rolls were stolen in order to learn of the status of all of the Indians so far as the degree of blood is concerned, for the pur-

pose of swindling the Indian out of his land.

"I went to the White House yesterday and verbally stated the situation, asking for presidential aid. By appointment, I went back again today, with a written argument and discussed the subject with the President. He asked me to submit my written argument to Commissioner Leupp and to bring him Mr. Leupp's decision, which I will do.

"From sources which to me seem unusually strong and which have heretofore been dormant, offers of assistance have come and there seems nothing left for me to do, but stay here and go the limit before admitting defeat. Unless something unexpected occurs this I will do."

INDIAN APPROPRIATION BILL REPORTED TO SENATE

Washington, April 14.—The Indian appropriation bill was reported Friday from the Senate committee by Chairman Clapp. The principal items of increase are as follows:

Construction and repair of schools \$78,000, new schools and insane hospitals in Indian Territory \$100,000, for Kickapoos in New Mexico and Oklahoma \$245,235.

Among the amendments adopted was one to the effect that no army officer shall be engaged in the performance of the duties of Indian agent.

There are a number of amendments relating to the different tribes of Indians in Oklahoma and

Indian Territory such as establishing court districts and fixing times for holding court, school funds, etc.

The Senate Committee on Indian Affairs made two amendments of some consequence in the Indian appropriation bill, which it reported to the Senate yesterday. The more important of them proposes to remove the restrictions on the allotments in the Shawnee reservation of the Kickapoos, who are now in Mexico.

The other amendment proposed by the committee provides that the Bardwell survey shall be the dividing line between the Creek Nation and Oklahoma. Any Creek Indian land which by this decision may be thrown into Oklahoma is to be appraised and bought by the United States.

THE NEWS' HANDSOME PICTORIAL SOUVENIR ALBUM

The Souvenir Album Edition of the Ada News will be published next month. Ada shall be advertised just that way to secure substantial results. The News management thoroughly believes the proposed edition is just what the city of Ada needs. It will greatly surpass anything ever turned out in Ada, and the public generally knows that the special edition published by the News two years ago was a hummer.

The finest half tone cuts, 4x7 inches, will be printed on extra calendared paper. These will constitute farm and ranch scenes, growing crop views, street scenes, pictures of the manufacturing plants, interior and exterior of our business houses, residences, churches and schools. All these will be made from actual photographs taken expressly for us by the Peerless Portrait Co., and will bear the stamp of the most expert artists, even to the smallest details. The News will not entertain personal write-ups of any character. The edition represent Ada and surrounding country's substantial citizens talking sensibly and convincingly to the foreign prospective investor. There will be in-

cluded an exhaustive article describing the lands, water supply, railroad facilities, manufacturing industries, agricultural resources and schools, and containing other facts pertaining to our country which will furnish the prospective foreign investor an intelligent idea of the magnificent opportunities in this Ada country.

The one hundred pictorial scenes used in the News special will also be used in Dr. Steel's splendid and exhaustive edition to his magazine to appear later.

The entire number of half tone cuts and pictorial scenes will also appear in regular issues of the Ada Daily and Weekly.

The News will spare no expense or pains in this work. The public shall secure the profits! Our best efforts will be put forth and every facility of our plant will be utilized.

Over sixty views have already been contracted for, not a man so far having turned us down on the proposition of advertising Ada to the world.

The latest thing for swell billiard and pool tables is the rubber back covers. Try them at the Harris Hotel. 24t 17

LAND OFFICES ANCHORED AT ATOKA AND ARDMORE

Muskogee, I. T., April 14.—Some one down in the Choctaw and Chickasaw Nations has succeeded in slipping into the Curtis bill a clause that anchors the Indian land offices at Atoka and Ardmore until the final business of the government with the Indians is closed. Just how this was done no one seems to know, but it looks like the work of some

smooth ones who were interested in the towns of Atoka and Ardmore where the land offices are located.

It is known that it was the intention of the commission that as soon as the business in those two nations had been reduced sufficiently to justify it, to move the land offices to the main office in Muskogee, as was the case in the Cherokee land office.

THE JUDGE ELIMINATES THE GRAFT OF CURATORS

Durant, I. T., April 14.—At the last term of federal court at Atoka the Southern Trust company made an effort to secure an allowance of from \$30 to \$40 in each minor's case under a plea of "general expenses" to cover expenses. Judge Humphrey, the man who believes in "square deals," scented something of graft, and disallowed the charges, which would in the aggregate amount to 600 or 700 curators in three courts to at least \$20,000.

Last week at Antlers the Southern Trust company, for the curators, filed reports, and in these reports the small sum of \$2.88 under "general charge" in each case was asked for. This, in the aggregate, would figure up to several thousand dollars; also curator charges of \$15 in each case. Judge Humphrey again saw "bugs under the chips," and disallowed the claims.

In handing down his opinion Judge Humphrey stated that he was allowing these curators a regular fee for attorneys, same as in other cases, which alone figures up high.

PROBABLY THE TERRITORY MINES WILL OPEN APRIL 23

Denison, Texas, April 14.—It is believed that a concerted movement is on foot among a number of operators having coal mines along the Missouri, Kansas and Texas Indian country to open the mines Monday, April 23. The operators, it is understood, are willing to make some concessions, though they will not sign the 1908 scale. By offering these concessions, the operators think that a large number of the men will return to their work.

Three mines, at McAlester, Chambers and Haley, I. T., are running, but the output is not large.

OVERDRAFTS

It is becoming well known by business men that overdrafts, whether large or small, are not approved by the comptroller of the currency. The large central banks allow overdrafts only in a very small way, and this, it matters not how small, is not approved by the powers that be. This unbusinesslike habit of overdrafts grew out of advancing on moving products, such as cotton, grain and fat stock on the move. The overdraft system is wrong and the man whose account is always overdrawn is the man who spends more money than he makes and will finally have no bank account.

KANSAS DEFEATED.

An Ada, I. T., Son Shares in Victory
In Intercollegiate Debate.

Carlton Weaver arrived home Saturday from the University at Norman for a short visit. Carlton comes to us this time wreathed in laurels. He is fresh from a notable victory in intercollegiate debate, which occurred Friday night at Norman.

The question debated was, "Resolved: That insurance companies doing an interstate business should be under Federal control." The affirmative of this great question of the day was espoused by R. Woodward and J. C. Mitchell, representing the Kansas University; the negative

Longworth and Longfellow.

It was shortly before his marriage to Alice Roosevelt that Congressman Longworth was quite unexpectedly presented, at a large reception, to Samuel Longfellow, a brother of the poet. Now Longworth, be it remembered, is nothing if not a modest man, and he was just then in somewhat a rattled condition because of all the notoriety showered upon him by a gratuitous daily press.

He did not know what to say, and so he said only:

"Our names are almost similar, aren't they?"

Mr. Longfellow smiled kindly. "Yes," he quickly quoted; "worth makes the man and the lack of it the fellow."—Saturday Evening Post.

Throwing Goods Away.

Saturday was a record breaker at the big combination sale of Reed & Harrison and A. R. Sugg & Co. Shoppers fairly overwhelmed them. At the hours of eleven and three, a lot of goods were thrown away to the eager multitude in the street below. Naturally this created a good deal of merriment. There was a bull dog fight among a bunch of men over a rug. The final result was each man got "his"—a fragment. Likewise shoes tossed to the crowd lost their mates and people went about with one shoe looking for a match.

To the Young Men and Business People of Ada.

I have made the Smoke House one of the nicest and most up to date places for amusement in town, something nicer than you see in cities much larger.

In order to keep a place like this depends on your patronage. If you wish to learn to play pool or billiards I will take particular pains in showing you.

If you do not wish to play, come and make yourself at home in the reading room. Plenty of ice water and reading matter. I carry the nicest line of cigars in town. I solicit your patronage. 18 3t

M. E. Sangster.

And Ada Lost.

The initial base ball game of the season was rather disastrous to Ada's enthusiast. Last afternoon the Konawa team took a long fall out of them, winning by a score of 12 to 2. However, our boys have an abundance of good excuses for their defeat, for instance, some of Ada's best players were not in the game, the team had had no practice, the Konawas were all big grown ups, etc. Just wait till the Ada bunch gets groomed good!

Wedding invitations—the latest styles—turned out at the News office.

Superintendent Perkins Writes.

In a letter to the Ada School Board, Mr. Perkins says his school at Mesquite, Texas, will be out in three weeks; but on account of being instructor for one of the Texas summer normals from May to July, that it will be impossible to cast his lot with the Ada people before about July first. However, he expects to be able to visit our town in a few weeks that he may meet its people and render such service to the board as will contribute to the furthering of the schools' interest for the coming year. He further says that some of his pupils are speaking of coming with him to Ada and graduate in our schools next year.

The New's informant adds: "The town should congratulate itself in securing a superintendent who is graduate of the University of Missouri, which school is recognized as one of considerable note. The fact of his being instructor in the Normal is evidence of his superior qualifications, to say nothing of his success in building up a good school where he has continuously served for seven years. We are informed that his present school was at first a small affair, but that through his efforts it has grown until it is now affiliated with the Texas State University and is domiciled in a handsome brick structure which cost \$15,000, well equipped with quite a nice laboratory.

"Let everybody pull together and strive as in the past to increase the efficiency of our schools for in our opinion nothing so advertises a community as does good schools.

A Struggle for Gold.

Wood & Thompson present the four act western melodrama of above title. It is a play that is well worth the attention of all theatre goers, even those who do not generally patronize this style of performance. As a play it possesses strong literary as well as dramatic worth, and is refreshing in its originality. While it is chock full of that tender sentiment called "heart interest," bright comedy of the latest vintage, and no end of thrilling developments and exciting situations; still it is a logical and well told story, with none of the inconsistencies or impossibilities too often seen in a melodrama. The audience is not asked to believe anything out of reason, or to fill any gaps with imagination. Add to this a splendid production of scenery and effects, and you have a general idea of the excellence of this attraction. The company, in order to give the measure heaping full, introduces six clever specialties between the acts, so as to take up every moment of the time.

Knights Templars Services.

Ada Commandary of Knights Templar will hold its annual Easter service at the Cumberland Presbyterian Church, corner of 15th and Townsend, on next Sunday at 11 o'clock. The Sir Knights will march to the church in full uniform and open their service, which is a very elaborate and beautiful one. Bro. J. M. Martin will preach the sermon. All Sir Knights in the city and surrounding towns are cordially invited to be with us. We especially invite the public to attend this service.

Sabbath School.

At the usual hour, 9:45 tomorrow morning, there will be Sabbath School at the Presbyterian Church. Bring your bibles and the children and come out.
